ABSTRACT

This is the eighth annual report of national normative data on characteristics of students entering college as first-time, fulltime freshmen. Data are based on responses from 189,733 freshmen entering 360 institutions to the Student Information Form (SIF), the survey instrument. The SIF is designed to elicit a wide range of biographic and demographic data, as well as data on the student's high school background, career plans, educational aspirations, financial arrangements, high school activities, and current attitudes. National norms are categorized according to type of institution and type of control for: men, women, and all freshmen; universities by selectivity level, by sex; 4-year colleges by selectivity level; and geographic region, by sex. Appendices give institutions participating in the ACE/UCLA cooperative institutional research program and the 1973 Student Information Form. (MJM)

COOPERATIVE INSTITUTIONAL RESEARCH PROGRAM
of the
AMERICAN COUNCIL ON EDUCATION
and the
UNIVERSITY OF CALIFORNIA, LOS ANGELES

The Cooperative Institutional Research Program (CIRP) is a national longitudinal study of the American higher educational system. Established in 1966 by the American Council on Education, the CIRP is now the largest ongoing empirical study of American higher education—involving data on more than 500 institutions, 100,000 faculty, and 2.5 million students. In order to maximize the utilization of these data in research and research training, responsibility for administering the CIRP was transferred in 1973 to the Graduate School of Education at the University of California, Los Angeles. The annual CIRP survey of entering freshmen is now administered from the Higher Education Laboratory at UCLA under continuing support and sponsorship of the American Council on Education.

AMERICAN COUNCIL ON EDUCATION

The American Council on Education, founded in 1918, is a council of educational organizations and institutions. Its purpose is to advance education and educational methods through comprehensive voluntary and cooperative action on the part of American educational associations, organizations, and institutions.

HIGHER EDUCATION LABORATORY
GRADUATE SCHOOL OF EDUCATION
UNIVERSITY OF CALIFORNIA, LOS ANGELES

The Higher Education Laboratory was established in 1973 as part of UCLA's Graduate School of Education. The Laboratory serves as an interdisciplinary center for research, evaluation, information, policy studies, and research training in the field of higher education.

The American Freshman: National Norms for Fall 1973

This is the eighth annual report of national normative data on characteristics of students entering college as first-time, full-time freshmen. This series, which was initiated in 1966, is a part of the Cooperative Institutional Research Program (CIRP), an ongoing longitudinal study of the American higher education system.

The principal purpose of the CIRP is to determine the effects of colleges on students (Astin et al., 1966). During the past seven years, normative, substantive, and methodological research has produced information pertinent to a wide range of issues in higher education (American Council on Education, 1972).

The freshman survey data reported here have been weighted to provide a normative picture of the college freshman population for persons engaged in guidance, counseling, administration, educational research, policy analysis, and manpower planning, as well as for the general community of students and parents. The survey instrument, the Student Information Form (SIF), is revised annually to reflect the changing concerns of the academic community and of others who use the information. SIF data also provide initial input information for longitudinal research. Followup surveys of individual students in each entering class are conducted at various intervals after the initial survey.[1]

From 1966 to 1970, approximately 15 percent of the nation's institutions of higher education were selected by sampling procedures and invited to participate in the program. As the academic community became aware of the value of program participation, additional institutions asked to participate. Beginning in 1971, all institutions that have entering freshman classes and that respond to the U. S. Office of Education's Higher Education General Information Surveys were invited to participate. A minimum charge, plus a unit rate based on the number of forms processed, helps to defray the direct costs of the survey.

---

[1] Normative results from followup studies have been published as have descriptive profiles for student subgroups abstracted from the freshman survey information.

The normative data are reported separately for women and for men, and for 38 different groupings of institutions. A substantial increase in the number of groups (in prior years data for only 24 norm groups have been reported) was made this year in order to provide a more detailed basis for normative comparisons. The elaboration of normative groups for 1973 was principally in terms of the "selectivity level" of the institution. Selectivity, which is an estimate of the average academic ability of the entering class, was made an integral part of the CIRP stratification design (see Figure A) in 1968 because of its substantial correlation with most measures of institutional "quality" (Astin, 1962).

The 1973 Data

Although 318,178 entering freshmen at 579 colleges and universities returned their forms in time for data to be included in the 1973 survey, the normative data presented here are based on responses from 189,733 freshmen entering 360 institutions; this institutional figure includes 320 prior and 40 new participants.

The national norms are based only on data from institutions where the coverage of entering freshmen was judged to be representative. This judgment is based on the percentage of first-time freshmen who completed the 1973 SIF and on the procedures used to administer the forms. Four-year colleges are included in the national norms if over 85 percent of their first-time, full-time freshmen completed the SIF; universities must have over 75 percent participation, while two-year colleges must have 50 percent.[2]

The normative data presented here were collected by administering the 1973 SIF during registration, freshman orientation, or the first few weeks of classes. The SIF is designed to elicit a wide range of biographic and demographic data, as well as data on the student's high school background, career plans, educational aspirations, financial arrangements, high school activities, and current attitudes. Those data meeting minimal quality requirements for inclusion in the 1973 norms were differentially weighted to represent the population of entering freshmen at all higher educational institutions in the United States.[3]

Part-time students and those who are not first-time college students (i.e., transfers and former enrollees) were excluded from the normative sample. In the 1972 and 1973 surveys, special care was taken to define these enrollment statuses; in earlier surveys, the participating institutions were asked to exclude part-time students, while non-first-time students were excluded during the data processing stage by screening out those who indicated that they had previously attended college. For this and last year's freshman surveys, all students who did not identify themselves as part-time were included in the national norms, if they either graduated from high school in 1973 or had never attended any institution for credit.

---

[2] Each participating institution received a complete tabulation of its data, but those with unrepresentative sampling were informed that comparisons between their institutional data and the national norms should be made with caution.

[3] A distinction should be made between higher education and postsecondary education. These surveys do not include students attending proprietary, special vocational, or semiprofessional institutions; they do include those attending two-year colleges with terminal occupational programs.

The Higher Education Universe and Institutional Stratification Design

The stratification design for the 1973 survey is identical to that used in 1971 and 1972 (see Figure A), except that an additional stratification cell was created by dividing the two-year black colleges into public and private. The rationale for this particular design is provided in the 1971 normative report and in Creager (1968).

The population included all eligible institutions of higher education listed in the annual USOE Education Directory (1972). An institution was considered eligible if it was functioning at the time of the survey and if it had a freshman class of at least 30 students. Thus, institutions requiring undergraduate credits for admission to their first class (e.g., some professional schools) and a few very small institutions were excluded. In addition, some institutions or their branches were included even though separate 1972 enrollments were not available from USOE, because they were part of prior universes in these surveys and were known to be functioning with first-time, full-time entering freshmen. With these exceptions, the defined population comprised all accredited and nonaccredited institutions listed by USOE, whether university, four-year college, or two-year colleges. For the 1973 survey, the population of institutions numbered 2,588.

Typically, institutions make budgetary decisions and plan their orientation and registration early in the year. Since these matters affect participation in the

[a] Selectivity (Sel), used to define strata for four-year colleges and universities, is described in detail in the 1968 National Norms for Entering Freshmen, Page 3. Enrollment (Enroll), used to define strata for two-year colleges, is based on the total number of first-time, full-time entrants.

freshman survey, institutions must be invited to participate several months before information is available to define the final survey population. A total of 2,569 institutions were invited to participate in the 1973 survey. Of these, 770 (30.0 percent) participated in one or more of the earlier surveys, and 1,799 (70.0 percent) were new invitees. A total of 623 (24.2 percent) institutions accepted the invitation to participate. Of the 527 participating in the 1972 survey, 472 (89.6 percent) accepted again in 1973.

Because of administrative and logistic problems, 44 institutions that accepted the invitation to participate were unable to return the completed forms in time for their data to be included in the national norms. Thus, data were obtained from 579 (93.0 percent) of the institutions that had agreed to participate in the 1973 survey. Appendix A lists all institutions that have participated in CIRP in any of the eight years since its inception and indicates for each institution the current stratification cell assignment, the number of years it has participated, and its status in the 1973 survey.

Weighting Procedures

The data obtained from students were differentially weighted because of disproportionate sampling of institutions within each stratification cell and because not all students at each college completed the SIF. Table 1 shows the number of participating institutions in each stratification cell and the cell weights applied to each institution's data in computing the national norms. The cell weights in the last two columns are the ratios between the number of first-time, full-time freshmen in the eligible population within a given cell and the number of freshmen entering

[a] Ratio between the number of 1972 first-time, full-time students enrolled in all colleges and the number of first-time, full-time students at colleges in the ACE sample.

sample institutions in that cell, computed separately for each sex. Since population data for 1973 enrollments were not available at the time of the 1973 survey, these weights were derived from 1972 data. In effect, this procedure assumes that the sample institutions within a cell account for the same proportion of students in that cell in 1973 as in 1972.

These cell weights were further adjusted within each institution, by sex, according to the proportion of the institution's 1973 first-time, full-time freshmen who completed the SIF. These total counts of 1973 freshmen are obtained directly from each participating institution at the time of the freshman survey. Typically, this second weight was between 1.0 and 2.0; in the case of an institution that administered the form to its entire freshman class, the weight was exactly 1.0. The final weight applied to the data from each student was the product of this within-institution participation weight and the appropriate cell weight shown in Table 1.[4]

These weighting procedures generated summary data representative of all first-time, full-time students entering institutions of higher education in the fall of 1973. Note that the SIF was completed by entering freshmen and, thus, the data reflect responses prior to any substantial experience with college life.

The Student Information Form

The SIF is designed to serve two functions: first, to obtain student input data for longitudinal research; and second, to obtain standard descriptive and normative data for general information. The form thus contains standard biographic and demographic items that have been administered annually to each entering class, as well as research-oriented items that are either new (e.g., freshmen were asked for the first time in 1973 how many credit hours they were planning to take in the fall term) or modified from previous years (e.g., year graduated from high school). The inclusion of both new and modified items permits a more thorough coverage of student characteristics but also represents a compromise between two mutually exclusive objectives: (1) comparability of information from year to year which is required for assessing trends; and (2) flexibility in item content to meet the changing informational and research needs. Table 2 lists 1973 SIF items and indicates previous survey years in which comparable items have been used.

---

[4] Cell weight in Table 1 is a sex-specific constant for each sample institution in a given cell, whereas the within-institution weight is a sex-specific constant for a given institution but varies from one institution to another, depending on how adequately the institution "covered" its entering class.

The SIF, reproduced in Appendix B, was developed in collaboration with students, professional associations, participating institutions, government agencies, educational researchers, and administrators. It is designed for self-administration under proctored conditions and for processing onto magnetic tape with an optical mark reader. The 1974 SIF is currently being designed with the assistance of the CIRP Advisory Committee (see inside front cover).

Each year, four tape files are developed from the SIF: (1) an institutional summary file containing institutional identification numbers and an institutional summary of the responses for men and women; (2) a file containing individual responses and a student identification number, but no names and addresses;

[a] First-time, full-time.

(3) a name-and-address file containing a second, independent student identification number; and (4) a "link" file containing only the two independent identification numbers. This last file is maintained under an elaborate system developed to ensure strict confidentiality of individual student data and to protect against misuse of the name-and-address file (Astin and Boruch, 1970).

1973 National Norms

Table 3 shows the numbers of institutions and students on which the 1973 national norms are based; it also gives an estimate, derived through weighting procedures, of the total student population. (These counts are the product of the 1973 enrollments reported to us by the institutions and the cell weights shown in Table 1.) Of the 38 norms groups, the following 21 are new for 1973: breakouts of black colleges into public and private (2), and breakouts on selectivity level for public universities (3), private universities (3), public colleges (3), private-nonsectarian colleges (4), Protestant colleges (3), and Roman Catholic colleges (3). Omitted from the norms groups this year were technical institutions (1) and breakouts of institutions by sex (6).[5]

The creation of norms groups based on selectivity was accomplished as follows:

Selectivity Level	Stratification Cells Assigned to Each Level
low	1, 4, 7, 10, 11, 15, 16, 19, 20, 21, 24
medium	2, 5, 8, 12, 17, 22
high	3, 6, 9, 13, 18, 22
very high	14

---

[5] "Technical institutions" as a group has been substantially reduced in size in recent years, primarily because many such institutions have changed their status to "universities." Also, because so many formerly single-sex colleges have recently become coeducational, the characteristics of various norms groups based on institutional sex have also changed radically. (It should be kept in mind, however, that separate sex norms are provided.)

In previous reports of CIRP national norms, the various selectivity levels have been shown (e.g., Figure A), but no information on the precise meaning of these levels has been provided. However, since for the 1973 report we are reporting normative data separately for colleges in different selectivity levels, we decided that it would be helpful to provide more explicit definitions of each selectivity level:

Selectivity Level	Approximate range of mean test scores of student bodies entering institutions in that level	
	ACT Composite	SAT V + M
low	22 or less	999 or less
medium	23 - 25	1,000 - 1,149
high	25 - 28	1,150 - 1,249
very high	28 or greater[6]	1,250 or greater

The items of normative data appear in the same order in the norms report and in the individual reports furnished to each participating institution. The first 30 pages of the national norms present item data separately for men, women, and all students according to the first 15 categories in Table 3; the next two sets of 10 pages show norms for universities and four-year colleges, respectively, broken out by selectivity levels; the final 10 pages show norms for the four geographic regions.[7] (Since these regions are not derived from the stratification design, regional comparisons should be made with caution.)

---

[6] The cutting point between high and very high selectivity levels falls at the midpoint of an ACT score of 28.

[7] A state is assigned to a given region by USOE criteria. See Appendix C for region categories. Also in Appendix C are the several items (e.g., probable major field of study) that have been recoded into a smaller number of categories for tabular purposes.

The different types of institutions can be compared on any given item by examining the percentages in the row following the item. For many items the data differ substantially among categories of institutions, as well as within any single category.

To report statistical indicators of precision for every categorical percentage in every norms group is impractical. However, some idea of the reliability of the reported data is important for comparisons across norms groups, across related item categories, and over time (i.e., with data from earlier norms reports). Appendix D presents some guidelines for judging the precision of the normative estimates and their comparisons.

(**)
This item is reported for the first time in 1973. Items not indicated with '**' are repeated or modified questions from one or more of the earlier surveys.

(1)
Percentages will sum to more than 100 if any students checked more than one category.

(2)
Recategorization of this item from a longer list is shown in Appendix C of the 1973 Nat'l Norms Report.

(**)
This item is reported for the first time in 1973. Items not indicated with '**' are repeated or modified questions from one or more of the earlier surveys.

(1)
Percentages will sum to more than 100 if any students checked more than one category.

(2)
Recategorization of this item from a longer list is shown in Appendix C of the 1973 Nat'l Norms Report.

(**)
This item is reported for the first time in 1973. Items not indicated with '**' are repeated or modified questions from one or more of the earlier surveys.

(1)
Percentages will sum to more than 100 if any students checked more than one category.

(2)
Recategorization of this item from a longer list is shown in Appendix C of the 1973 Nat'l Norms Report.

(**)
This item is reported for the first time in 1973. Items not indicated with '**' are repeated or modified questions from one or more of the earlier surveys.

(1)
Percentages will sum to more than 100 if any students checked more than one category.

(2)
Recategorization of this item from a longer list is shown in Appendix C of the 1973 Nat'l Norms Report.

(**)
This item is reported for the first time in 1973. Items not indicated with '**' are repeated or modified questions from one or more of the earlier surveys.

(1)
Percentages will sum to more than 100 if any students checked more than one category.

(2)
Recategorization of this item from a longer list is shown in Appendix C of the 1973 Nat'l Norms Report.

(**)
This item is reported for the first time in 1973. Items not indicated with '**' are repeated or modified questions from one or more of the earlier surveys.

(1)
Percentages will sum to more than 100 if any students checked more than one category.

(2)
Recategorization of this item from a longer list is shown in Appendix C of the 1973 Nat'l Norms Report.

79/80

APPENDIX B

1973 Student Information Form

YOUR NAME (Please print) First Middle or Maiden Last

HOME STREET ADDRESS (print)

CITY (print) STATE Zip Code

1973 STUDENT INFORMATION FORM 619417

When were you born? Month (01-12) Day (01-31) Year

Dear Student:

The information in this report is being collected as part of a continuing study of higher education by the American Council on Education. The Council, which is a non-governmental association of colleges and educational organizations, encourages and solicits your cooperation in this research in order to achieve a better understanding of how students are affected by their college experiences. Detailed information on the goals and design of this research program are furnished in research reports available from the Council. Identifying information has been requested in order to make subsequent mail follow-up studies possible. Your response will be held in the strictest professional confidence.

Sincerely yours,

Roger W. Heyns

Roger W. Heyns, President

DO NOT MARK	MARK ONLY IF DIRECTED	GRP.
⓪ ⓪ ⓪ ⓪ ⓪ ○	⓪ ⓪ ⓪ ⓪ ⓪ ⓪ ⓪ ⓪ ⓪	⓪ ⓪
① ① ① ① ① ○	① ① ① ① ① ① ① ① ①	① ①
② ② ② ② ② ○	② ② ② ② ② ② ② ② ②	② ②
③ ③ ③ ③ ③ ○	③ ③ ③ ③ ③ ③ ③ ③ ③	③ ③
④ ④ ④ ④ ④ ○	④ ④ ④ ④ ④ ④ ④ ④ ④	④ ④
⑤ ⑤ ⑤ ⑤ ⑤ ①	⑤ ⑤ ⑤ ⑤ ⑤ ⑤ ⑤ ⑤ ⑤	⑤ ⑤
⑥ ⑥ ⑥ ⑥ ⑥ ②	⑥ ⑥ ⑥ ⑥ ⑥ ⑥ ⑥ ⑥ ⑥	⑥ ⑥

⑧ ⑧ ⑧ ⑧ ⑧ ④	⑧ ⑧ ⑧ ⑧ ⑧ ⑧ ⑧ ⑧ ⑧	⑧ ⑧
⑨ ⑨ ⑨ ⑨ ⑨ Ⓐ	⑨ ⑨ ⑨ ⑨ ⑨ ⑨ ⑨ ⑨ ⑨	⑨ ⑨

DIRECTIONS: Your responses will be read by an optical mark reader. Your careful observance of these few simple rules will be most appreciated.

- Use only black lead pencil (No. 2½ or less).
- Make heavy black marks that fill the circle.
- Erase cleanly any answer you wish to change.
- Make no stray markings of any kind.

EXAMPLE:

	Yes	No
Will marks made with ball pen or fountain pen be properly read?	○	●

1. Your sex:

Male ○
Female ○

2. Are you a U.S. citizen? (Mark one)

Yes, native born ○
Yes, naturalized ○
No ○

3. How old will you be on December 31 of this year? (Mark one)

16 or younger ○
17 ○
18 ○
19 ○
20 ○
21 ○
22 ○
23-25 ○
26-29 ○
30 or older ○

4. To how many colleges other than this one did you apply for admission this year? From how many did you receive acceptances for this year? (Mark one in each column)

	Applications	Acceptances
No other	○	○
One	○	○
Two	○	○
Three	○	○
Four	○	○
Five	○	○
Six or more	○	○

5. How many miles is this college from your parents' home? (Mark one)

5 or less ○
6-10 ○
11-50 ○
51-100 ○
101-500 ○
More than 500 ○

6. What is the highest academic degree you intend to obtain? (Mark one in each column)

	Highest Planned at this College	Highest Planned at any Time
None	○	○
Associate (A.A. or equivalent)	○	○
Bachelor's degree (B.A., B.S., etc.)	○	○
Master's degree (M.A., M.S., etc.)	○	○
Ph.D. or Ed.D.	○	○
M.D., D.O., D.D.S., or D.V.M.	○	○
LL.B. or J.D. (Law)	○	○
B.D. or M. Div. (Divinity)	○	○
Other	○	○

7. Are you enrolled (or enrolling) as a: (Mark one)

Full-time student? ○
Part-time student? ○

8. Prior to this term, have you ever taken courses for credit at this institution?

Yes ○ No ○

9. Since leaving high school, have you ever taken courses at any other institution? (Mark all that apply in each column)

	For Credit	Not for Credit
No	○	○
Yes, at a junior or community college	○	○
Yes, at a four-year college or university	○	○
Yes, at some other postsecondary school (For ex., technical, vocational, business)	○	○

10. In what year did you graduate from high school? (Mark one)

1973 ○
1972 ○
1971 ○
1970 or earlier ○
Did not graduate but have passed General Educational Development test (G.E.D. High School Equivalency) ○
Never completed high school ○

11. What was your average grade in secondary school? (Mark one)

A or A+ ○ B+ ○ B- ○ C ○
A- ○ B ○ C+ ○ D ○

12. Below are some reasons that might have influenced your decision to attend this particular college. How important was each reason in your decision to come here? (Mark one answer for each possible reason)

	Very Important	Somewhat Important	Not Important
My parents wanted me to come here	Ⓥ	Ⓢ	Ⓝ
I wanted to live away from home	Ⓥ	Ⓢ	Ⓝ
My teacher advised me	Ⓥ	Ⓢ	Ⓝ
This college has a very good academic reputation	Ⓥ	Ⓢ	Ⓝ
I was offered financial assistance	Ⓥ	Ⓢ	Ⓝ
Someone who had been here before advised me to come here	Ⓥ	Ⓢ	Ⓝ
This college offers special educational programs	Ⓥ	Ⓢ	Ⓝ
This college has low tuition	Ⓥ	Ⓢ	Ⓝ
My guidance counselor advised me	Ⓥ	Ⓢ	Ⓝ
I wanted to live at home	Ⓥ	Ⓢ	Ⓝ
I could not get a job	Ⓥ	Ⓢ	Ⓝ

(Note: Please check that your pencil markings are completely darkening the circles. Please do not make √'s or X's.)

13. How many credit hours will you be taking during the fall term?
(Mark one)
More than 18 hrs ○
16-18 hrs ○
12-15 hrs ○
9-11 hrs ○
6-8 hrs ○
Less than 6 hrs ○

14. Are you a veteran? (Mark one)
No ○
Yes, I served in Southeast Asia ○
Yes, but I did not serve in Southeast Asia ○

15. Are you: (Mark all that apply)
White/Caucasian ○
Black/Negro/Afro-American ○
American Indian ○
Oriental ○
Mexican-American/Chicano ○
Puerto Rican-American ○
Other ○

16. Current religious preference:

(Mark one in each column)	Yours	Father's	Mother's
Baptist	○	○	○
Congregational (U.C.C.)	○	○	○
Eastern Orthodox	○	○	○
Episcopal	○	○	○
Jewish	○	○	○
Latter Day Saints (Mormon)	○	○	○
Lutheran	○	○	○
Methodist	○	○	○
Muslim	○	○	○
Presbyterian	○	○	○
Quaker (Society of Friends)	○	○	○
Roman Catholic	○	○	○
Seventh Day Adventist	○	○	○
Unitarian-Universalist	○	○	○
Other Protestant	○	○	○
Other Relig[illegible]	○	○	○
None	○	○	○

17. Which applies to yo[illegible] (Mark one)
Presently married ○
Presently engaged ○
Have been seeing one person exclusively ○
Have been dating, but no one steadily ○
Have not been dating in recent mont[illegible] ○

18. How many children do you have now?

None	1	2	3	4	5 or more
○	○	○	○	○	○

19. What is the total number of children you expect to have?

None	1	2	3	4	5 or more
○	○	○	○	○	○

20. What is the highest level of formal education obtained by your parents and (if married) by your spouse?

(Mark one in each column)	Father	Mother	Spouse
Grammar school or less	○	○	○
Some high school	○	○	○
High school graduate	○	○	○
Postsecondary school other than college	○	○	○
Some college	○	○	○
College degree	○	○	○
Some graduate school	○	○	○
Graduate degree	○	○	○

21. What is your best estimate of your parents' total income last year? Consider annual income from all sources before taxes. (Mark one)
Less than $3,000 ○
$3,000-$3,999 ○
$4,000-$5,999 ○
$6,000-$7,999 ○
$8,000-$9,999 ○
$10,000-$12,499 ○
$12,500-$14,999 ○
$15,000-$19,999 ○
$20,000-$24,999 ○
$25,000-$29,999 ○
$30,000-$34,999 ○
$35,000-$39,999 ○
$40,000-$49,999 ○
$50,000 or more ○

22. How many brothers and/or sisters do you have under 21? 21 or older? in college? (Do not include yourself.)
(Mark one in each row)

	None	1	2	3	4 or more
Under 21	○	○	○	○	○
21 or older	○	○	○	○	○
In college	○	○	○	○	○

23. Are your parents currently employed? Were they employed when you entered high school?

(Mark one in each column)	Currently Employed		Employed When You Entered High School	
	Father	Mother	Father	Mother
Yes, full-time	○	○	○	○
Yes, part-time	○	○	○	○
No	○	○	○	○

24. Do you have any concern about your ability to finance your college education? (Mark one)
None (I am confident that I will have sufficient funds) ○
Some concern (but I will probably have enough funds) ○
Major concern (not sure I will have enough funds to complete college) ○

25. How much of your first year's educational expenses (room, board, tuition, and fees) do you expect to cover from each of the sources listed below?

(Mark one answer for each possible source)	None	$1-499	$500-999	$1,000-1,999	$2,000-4,000	Over $4,000
Part-time or summer work	○	○	○	○	○	○
Full-time work	○	○	○	○	○	○
Savings	○	○	○	○	○	○
Spouse	○	○	○	○	○	○
Parental, family aid, or gifts	○	○	○	○	○	○
Federal benefits from parent's military service	○	○	○	○	○	○
Parents' social security benefits	○	○	○	○	○	○
G.I. benefits from your military service	○	○	○	○	○	○
Scholarships and grants	○	○	○	○	○	○
Federally insured loans, or college loans (For ex., NDEA)	○	○	○	○	○	○
Other repayable loans	○	○	○	○	○	○
Other	○	○	○	○	○	○

26. Where do you plan to live during the fall term? (Mark one)
With parents or relatives ○
Other private home, apartment or room ○
College dormitory ○
Fraternity or sorority house ○
Other campus student housing ○
Other ○

27. Are you financially independent of your parents this year? Were you financially independent last year?

(Mark one for each year)	Yes	No
This year	○	○
Last year	○	○

28. What was your total income last year independent of your parents? Consider annual income from all sources before taxes. (If married, include spouse's income.)
(Mark one)
None ○
Less than $500 ○
$500-$999 ○
$1,000-$1,999 ○
$2,000-$2,999 ○
$3,000-$4,999 ○
$5,000-$9,999 ○
$10,000 or more ○

29. How would you characterize your political views? (Mark one)
Far left ○
Liberal ○
Middle-of-the-road ○
Conservative ○
Far right ○

30. What is:

Your probable future occupation?
Your father's current occupation?
Your mother's current occupation?
Your spouse's current occupation, if married?

(Mark one in each column)

NOTE: If your father or mother is deceased or retired, please indicate his or her last occupation.

Unemployed	Unemployed
Undecided	Undecided

APPENDIX D

Precision of the Normative Data and Their Comparisons

Precision of the Normative Data and Their Comparisons

So far as random errors are concerned, the standard error of a categorical percentage is a function of that percentage and of the number of participants (unweighted) in the norms group. Approximate standard errors for various item response percentages, by size of norms group, are presented in Table D-1. If one allows for finite sampling and stratification, values would be somewhat lower. Primarily, however, stratification ensures some sampling in all sectors of higher education and provides a basis in the weighting procedures for disproportionate sampling of institutions. In comparisons involving item response percentages for independent norms groups or for freshman cohorts, the standard error of the difference is approximately equal to the square root of the sum of the squared sampling errors.

A potentially important source of error in stratified sampling is the nonrepresentativeness of samples within each stratification cell. Although reasonable precautions are taken to minimize known sources of systematic bias, the data are subject to some unknown degree of constant and nonrandom variable errors. A participating institution must be cautious when it compares its own summary data with data for the corresponding national norms group, especially when the institution is small or when it has not surveyed all entering freshmen. It is hoped that such comparisons can be made with more confidence this year because of the finer breakouts by selectivity level.

While comparisons of these 1973 data with national norms from the seven previous surveys of freshmen (1966-72) are possible, such comparisons should keep in mind the following considerations:

1. Since certain items may not be comparable because of minor wording changes, the exact wording of items should first be examined.
2. Some items have been changed by expanding the number of categories (e.g., the 1973 career choices and major fields).
3. While every effort has been made to maximize comparability of the institutional sample from year to year (repeat participation runs about 90 percent), comparability is reduced somewhat by (a) non-repeat participation and (b) variation from year to year in the quality of data collected by repeat participants.
4. Changes in the stratification design may have reduced the comparability of data from earlier years. Major changes in the stratification and weighting procedures were introduced in 1968 (addition of cells for black colleges and selectivity levels) and 1971 (addition of cells for public and private universities, public and private black colleges, and size levels for two-year colleges).[a]
5. Since the regional norms are not based on the CIRP stratification design (all of the other 34 norms groups are derived directly by collapsing selected stratification cells), regional comparisons (particularly of N's), should be made with caution.

---

[a] Currently under consideration by the CIRP staff is the production of new sets of normative data from earlier years based on an identical stratification procedure.

Standard Errors of Categorical Response Percentages for Norms Groups of Various Size[a]

Number of Actual Participants in Norms Group	1% or 99%	10% or 90%	25% or 75%	50%
2,500	.199	.600	.866	1.000
5,000	.141	.424	.612	.707
7,500	.115	.347	.500	.577
10,000	.100	.300	.433	.500
25,000	.063	.190	.274	.316
50,000	.044	.134	.194	.224
75,000	.036	.110	.158	.183
100,000	.031	.095	.137	.158
150,000	.026	.077	.112	.129
175,000	.024	.071	.104	.120

[a] Assumes simple random sampling of students from an infinite population.

[b] To determine, see Table 3, column 2.

(*)
Total number of valid forms received from your instution.

(**)
This item is reported for the first time in 1973. Items not indicated with '**' are repeated or modified questions from one or more of the earlier surveys.

(1)
Percentages will sum to more than 100 if any students checked more than one category.

(2)
Recategorization of this item from a longer list is shown in Appendix C of the 1973 Nat'l Norms Report.
